

Is it really possible for a Precision Manufacturing Company to deliver customers an advantage over their competition?

THE ANTHONY ADVANTAGE

Offering the industry's best workforce a culture of precision and service, Anthony Machine delivers customer directed outcomes in the quality machining of new and refurbished parts.

At Anthony Machine, we not only believe in this advantage, we design our work practices around it.

We know that quality machined parts are necessary to make equipment run right; enabling our customers to do what they do. We understand that we have a responsibility to serve our customers by

providing them with the quality parts they need when they need them.

With a culture focused on precision and service, Anthony Machine aims to be our customers' favorite supplier in the quality machining of parts.

In doing so we provide customers with the Anthony Advantage –

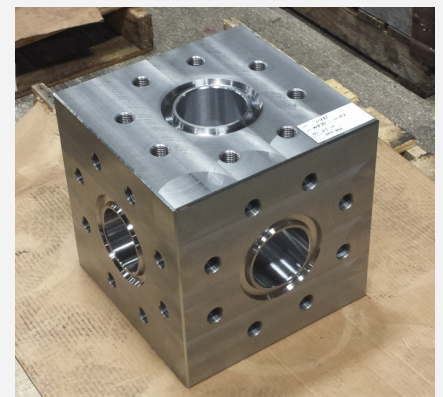

Quality Machined Parts that result in measurable benefits to their bottom line.
