

**FOR IMMEDIATE RELEASE**

## **ANTHONY MACHINE CELEBRATES 70 YEARS OF PRECISION MACHINING**

### **Management Outlines Strategy for Continued Growth**

SAN ANTONIO, TX Anthony Machine, the largest precision machine shop in San Antonio, is kicking off a celebration of their 70th year in business. Founded by David Anthony shortly after the end of World War II, D.S. Anthony & Sons remained in the family for three generations. The company was acquired by Framework Capital Partners in 2014 starting its next chapter of serving leading equipment manufacturers in the Energy, Defense, Aerospace, Aggregate, and Transportation industries .

“The company had such a strong foundation and reputation for providing quality work and a commitment to customer service, it fit perfectly into our portfolio.” says Jerry McGee, Managing Partner of Framework Capital Partners. “Incredibly, almost half of our employees have worked at the company for a decade or more with a few working there for over 30 years. Their collective expertise has provided our customers with stability and reliability rarely found in a precision machine shop.”

Anthony Machine has expanded its range of services providing for diversification and enhanced offerings to new industries. Mark Gonzalez, who also serves as Managing Partner at Framework Capital, is optimistic about the future of Anthony Machine. “Our success comes from continually evolving to serve the changing needs of customers. We were recently awarded AS9100 certification to serve the Aerospace sector better in addition to our efforts to support new industries.” Over the past year, Anthony Machine’s efforts have paid off now serving customers in the automotive, food processing and industrial automation industries.

Anniversary activities will continue throughout the year, to include employee and customer appreciation events, and an enhanced trade show and online presence.
