## **CELEBRATING 40 YEARS!**

Anthony Machine recently celebrated the 40<sup>th</sup> anniversary of machinist Ricardo Santillan. Ricardo began his tenure on July 12, 1978 when the machine shop was still owned and operated by the Anthony family. A multitude of changes have occurred since Ricardo was hired, including a change in ownership and countless technological advancements. Ricardo's knowledge and expertise as a machinist, however, is as valued and appreciated as ever.

In addition to a celebration with the entire team and other gifts, Ricardo was honored with his very own parking space for his Harley!

Thanks to Ricardo Santillan for your 40 years of loyalty and professionalism.

## **ABOUT ANTHONY MACHINE**

Anthony Machine provides high-precision parts to service companies and OEMs serving the Energy, Aggregate, Military and Transportation industries. With an operating history spanning almost 70 years, Anthony Machine is the largest, most respected machine shop in South Texas.
