

**FRAMEWORK
CAPITAL**

Framework Capital is a Texas-based, private investment firm that looks to partner with business owners or management teams who are seeking a long-term capital partner or to facilitate an ownership transition. Framework’s principals have decades of proven experience acquiring and operating public and private equity-backed companies.

We believe in principles-based leadership where the capability of a company’s management team directly impacts the magnitude of that company’s success. Patient capital allows us to focus on employee engagement and strategic efficiencies, which directly impact company financial performance leading to greater long-term value creation.
