

## CASE STUDY: Mechanical Engineering Consultative Services

### ■ Product: Primary Crusher Drive Pulley

#### Issue:

- ✓ Original Falk gearbox was discontinued. Customer needed to convert drive pulley to use with a new type gearbox with new backstop and couplings.

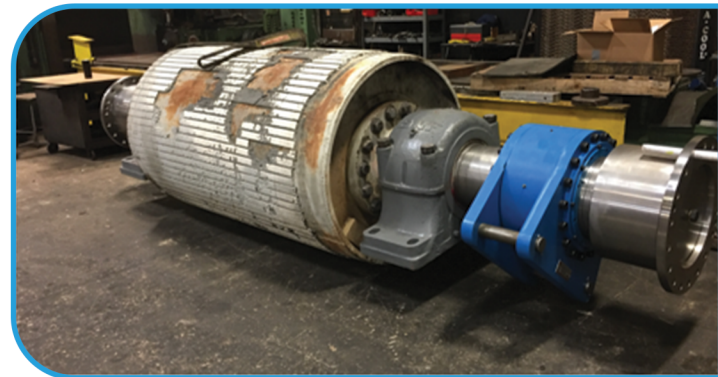

#### Solution:

- ✓ Design sketches, preliminary assembly layout presented to customer.
- ✓ Engineering feedback and OEM verification for backstop, gearbox, and pulley approved.

#### Outcome:

- ✓ Full assembly drawings, models, produced by Anthony Machine and approved by the customer.
- ✓ Components manufactured and modified at Anthony Machine. Bearing housings rebuilt and assembled.
- ✓ Completed assembly delivered.
